PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with hands-on experience in Artificial Intelligence, Machine Learning, and Full Stack Development. Experienced in building scalable web applications, REST APIs, AI-powered solutions, and data-driven systems using React, FastAPI, Flask, Node.js, Python, and MongoDB. Passionate about developing production-ready software, solving real-world problems, and continuously learning modern technologies.

EDUCATION

B.E. Computer Science & Engineering | Jain College of Engineering and Technology (2023-2027) | CGPA: 8.7

II PUC | Mahesh PU College | 91.8%

SSLC | SBIOAES English Medium School | 89.28%

TECHNICAL EXPERTISE

Programming: Java, Python, JavaScript, PHP, C, C++

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, Flask, FastAPI

AI/ML: Scikit-learn, Pandas, NumPy, OpenAI Whisper, Groq API

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Streamlit, Android Studio, WAMP

SELECTED PROJECTS

Accentrix – AI Pronunciation Coach

- Developed a full-stack AI pronunciation platform using React, Node.js, FastAPI and MongoDB.
- Integrated OpenAI Whisper for real-time speech analysis, multilingual pronunciation feedback and progress tracking.
- Implemented JWT authentication, browser audio processing and scalable microservice architecture.

GrowRight – AI Health & Nutrition Platform

- Built an AI-powered healthcare platform featuring personalized nutrition recommendations, gamification and an admin dashboard.
- Integrated Groq AI, secure session management and SQL injection prevention.

Laptop Price Predictor & Recommender

- Trained a Random Forest model on 1,000+ laptop records for accurate price prediction.
- Developed Flask APIs, recommendation features, responsive frontend and deployed the application.

CERTIFICATIONS

- Google Analytics Certification (GA4) - Google (Apr 2026)
- Introduction to Generative AI - Google (Feb 2026)
- Python for Beginners - Simplilearn (21 May 2026)
